

## BLUECIRCLE

Boosting Circular Economy  
Solutions for Marine Litter  
Collection and Recycling in the  
Adriatic-Ionian Regions

**This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)**

The BLUECIRCLE project aims to address marine pollution in an innovative way, promoting the circular economy. The project aims to test a mobile plant, able to separate the different materials present in the waste, allowing marine waste to be collected and treated directly along the coasts of the Adriatic-Ionian area. An important focus is also to raise awareness and promote sustainability with the involvement of stakeholders.

**Project budget  
in EUR**

€1.629.596,01

**INTERREG  
funding in EUR**

€1.385.156,59

**Project  
duration**

36 months
